

## FOR IMMEDIATE RELEASE

### MAY IS MAKING MIRACLES MONTH IN VANCOUVER

**Bearing witness to loving your neighbor as yourself, a miracle is a result of transformative service rendered to others.**

VANCOUVER BC - Namaste Publishing, inspired by its Founder and Publisher Constance Kellough, is advancing Making Miracles Month in Vancouver during May, starting with an initiative to raise funds for Seva Canada, the international charity based in Vancouver which brings the miracle of sight to those in the developing world who are blind or visually impaired [www.seva.ca](http://www.seva.ca) and culminating in an evening event at Unity of Vancouver May 25, where people are invited to come and experience their own making-miracle power.

During the entire month of May, you can purchase Namaste Publishing's latest book: *MAKING MIRACLES – Create New Realities for Your Life and our World* by Lynn Woodland at a 20% discount at Banyen Books and Sound on West 4th Avenue. All proceeds from these sales will be donated by Namaste Publishing and Banyen Books and Sound to Seva Canada. In addition, Namaste Publishing will be donating 25% of the net income from sales of *MAKING MIRACLES* from [www.namastepublishing.com](http://www.namastepublishing.com) during May.

How many miracles of sight can Vancouverites create through their donations to Seva Canada?

This miracle-making opportunity is a catalyst for Vancouverites to create many other miracles – whether by individual action or by joining with others in a group miracle-making experiment.

“If there ever was a time for miracles, it’s NOW,” says Constance Kellough. “My vision is that in May Vancouver will start on the path to becoming the first miracle-making city, when Vancouverites will commit to many acts of service for others and thereby inspire other communities and cities in North America and around the world to do the same.”

It all starts here in Vancouver. “Let’s astound ourselves; let’s boggle our minds with the miracles we can create – together. Let’s demonstrate to the world what quantum accomplishments can be

achieved when people join with one another to make a difference in the lives of others.”
